DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of Species 1, claims 1-8 in the reply filed on 5/27/05 is acknowledged. Claims 9-13 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected Species, there being no allowable generic or linking claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 7, and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Itoi.

The Itoi reference discloses a diaphragm valve comprising a bonnet 11 with an abutment surface (end surface facing handle 17 in Figure 1), a stem 15b, a handle 17 with a stop (handle surface which faces the abutment surface in Figure 1), a pin 20, and an aperture/slot with ends in the stem 15b which the pin 20 extends into (see Figure 1). Regarding claim 8, Figure 1 illustrates the threaded connection between the bonnet 11 and the stem 15b.

Allowable Subject Matter

Claims 4-6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
